Information for companies

As a company you can count on extra advantages at Unitax.

You do not have to pay each time after a ride. You can pay with taxi cheques, which are invoiced twice per month. You can get an appendix with the desired data such as name of the passenger, order number, date and taxi cheque number.

An example of a taxi check:

``

If you wish to pay with a direct debit, you get a 5% discount on this invoice.

Customers who regularly travel a fixed route can have a fixed and cheaper price arranged for this route.

When large groups have to be brought from one location to another, Unitax offers a solution with its shuttle service.
